

Medications in School

- *Students are **NOT** permitted to self-carry any medications in school.*
- *The exception to this rule is for rescue inhalers (Albuterol) or auto-inject epinephrine (EpiPen), which are allowed once the required permissions are in place. Please see the school nurse for more information.*
- *Any medications that need to be taken during the school day must be provided in their original labeled container. Written parental permission must accompany all medications.*
- *Any medications that do not meet these criteria will not be given during the school day. State regulations mandate that these rules must be followed.*
